Dear Colleague,

I'm pleased to invite you to Young Oncological Laryngology Master, that will take place on 23 - 26 September 2024, in Vittorio Veneto.

After the success of the International Masters in Oncological Laryngology I renovate the event in order to dedicate it completely to young ENT under 40, involving both Young surgeons and Young oncologist radiotherapists, skilled in laryngeal oncology.

The scientific program will start with an introduction to laryngeal oncology concepts, that will focus on the bases of knowledge that I consider essential to the laryngologist who wants to deal with oncology. On the following days, live surgery (transoral laser microsurgery and open surgery) will be proposed in the morning, with the possibility of direct communication between surgeons and learners. Lectures dealing with specific topics and round tables chaired by skilled laryngological surgeons will be presented in the afternoons.

I want to thank Prof. Rizzotto, Prof. Succo and Prof. Nicolai for their participation. I also thank all the medical and paramedical staff of the Otolaryngology Unit of Vittorio Veneto Hospital, without whose contribution this event would not be possible.

Best regards
Andy Bertolin
